EIA Distribution is a wholly Western Australian owned company specialising in the supply of Electrical, Instrumentation and Automation products locally and nationally.

## Pre Insulated End Sleeve (Boot Lace) Ferrules

Designed to be crimped onto the end of flexible wires and cables before insertion into rail mounted or screw terminals, to provide protection to the fragile wire strands against bending back and breakage. Featuring a funnel entry, the fine electrolytic copper tubes are tin plated for superior conductivity and corrosion resistance. Pre-insulated ferrules are colour coded by size for easy product selection.

Part No.	Description	Qty
BL00352	Boot Lace Ferrules Pink .25/.34mm * 6mm	500Pk
BL00382	Boot Lace Ferrules Pink .25/.34mm * 8mm	500Pk
